Setting up a PC out of the box can be challenging, it often ends up in confusion resulting in a machine that is a pain to use. The manufacturers don't make it any easier, bombarding the user with multiple choices and unnecessary software.

By enabling easy access to the things that you like and frequently use and by placing the things that you don't need or use out of the way, we can provide you with a system that is secure, simple to operate and customised to your specific needs.
